FOR 208 WEEKS

THAT'S ALMOST \$20,000 MONTHLY

FOR YOU FOR 48 MONTHS

= \$1,000,000.00 (\$1MILLION)

Here we come again, **www.dmarketgurus.com** bringing you the best investment deal at affordable ways.

**So, you don't want to risk \$50,000 investment and go it alone?
Try this deal for \$500 monthly and still get back \$1 million**

**Here we need you to be a part of 100 people to invest \$500 monthly.
I repeat, \$500 monthly only and get back almost \$20,000 monthly.
Too good to be true? **It's true & legal. Relax.****

\$500 monthly x 100 investors = \$50,000 (\$50K) monthly.

With a cool \$50,000 monthly cash to use for buying and selling every months from these 100 investors, we'll be able to pay each of them the **\$4,810** every week for 208 weeks according to the contract at **dmarketgurus.com** for \$50K investment....but they'll invest only \$500 monthly.

How possible?

Our supplier's support and our strategy will allow us to turn every \$1.00 into $\$99 \times 2 = \$198 \times 50,000$ cash = **\$9,900,000 monthly.**

How do we pay you?

We'll pay \$4,810 weekly x 100 investors = \$481,000 weekly x 4 weeks. That's **\$1,924,000 monthly** to be paid out to the 100 investors from the **\$9,900,000 monthly.**

The advantages of this deal are:

- (1) The company will have \$50,000 liquid cash every month to inject into the business and produce \$4,810 for each of the investors weekly.
- (2) **The \$500 every month invested** by each investors, will be coming from their income of up to \$20,000 monthly from us after their 2nd \$500
- (3) They don't have to invest \$50,000 each or alone in lump sum
- (4) You'll end up investing only \$500 monthly for 48 months. That's a total of **\$24,000. Not \$50,000** because you got helped by the other 99 investors. However, at the end of the 208 weeks contract, you'll pay us a lump sum of \$26,000 in order to make your investment a total of \$50,000 but by that time, you must have made a lot of close to \$1 million money

What is the setback for this?

We have to have 100 investors/100 spots or this cannot start.

What is the fastest way to get the 100

\$500 monthly is for 1 spot, you could purchase more than 1 spot.

Also, you can invite your friends to join. Although we'll not pay you for this service of inviting your friends to join but it'll help get to the 100 spots quickly. We'll advertise it as well

What type of business are these to invest into?

Online digital advertising like Amazon, Facebook - (Ready)

Membership with discounts like Costco - (Ready)

Offline Local & National Newspapers & Magazine like USAToday - (To acquire & to start new ones- **Newspapers & Magazines-** Coming Soon)

Online coupon deals like Groupon - (Ready)

Any money potentials from these?

Yes, just the digital advertising alone is a \$165 Billion business in the USA alone

How much of the \$165B did you target to earn?

Only \$1.2 Billion - \$2 Billion revenues annually is our target.

Remember that to earn \$2 Billion a year (which a lot of companies are earning this days) one must be **earning \$170 million monthly.**

We have to be earning \$170 million monthly overall but only \$9.9 million from just these 100 partnership investors.

The \$1 million we'll pay each of 100 investors is spread for 4 years. That's for 48 months or 208 weeks.

That's only \$25 million a year. \$100 million over that 4 year.

The company would earn close to \$8 Billion over the 4 years period time frame.

Get involved now. You'll be glad that you did.

Why I'm a little skeptic to believe this?

We knew why, We knew that if the \$4,810 is to be divided weekly amongst the 100 investors and each of them would get paid ($\$4,810$ divided by 100) = **\$48.10** weekly is to be paid to each person, you'll have believed that become **\$4,810 weekly is standard to be paid to someone who'd invested \$50,000 in lump sum according to the program at www.dmarketgurus.com**

After all, you are just investing \$500 monthly which is equivalent to only \$125 weekly investment.

In other words, you would have believed a total of ($\$4,810$ divided by 100 investors = $\$48.10 \times 208$ weeks) = That's a total of **\$10,004.80 be paid to you**

Here's why that theory of yours will not work

(1) Why would you want to get back **\$48.10 weekly. \$192.40 monthly** after you have **invested \$500 monthly**? It does not make any sense.

(2) Also, why would you want only **\$10,004 back** after you have **invested a total of \$500 monthly x 48 months = \$24,000? plus another \$26,000 lump sum at the end of the contract. Total \$50,000 investment but only to get back \$10,004?**

(3) Moreover, Did you understand that we are trading (buying & selling) **with \$50,000 monthly** NOT \$50,000 one time investment? as is at www.dmarketgurus.com. That's \$600,000 a year investment from the 100 investors of \$500 monthly

(4) Furthermore, Did you understand that, we are getting a \$600,000 monthly deal from our product suppliers (backed by that \$500 monthly contract guarantees) NOT a \$50,000 deal?

Yes, we can pay you the \$4,810 weekly even though you did not invest the \$50,000 in lump sum and upfront

When would I get my first pay of \$4,810.00 weekly?

Your first payment of \$4,810 will be made to you in 6 weeks.

That's why your \$500 monthly investment obligation will be paid twice (which is a total of \$1,000 but your **FIRST \$4,810 WEEKLY INCOME WOULD ARRIVE WITHIN THE SAME SECOND MONTH.**

That's in six weeks

What could be my obstacle?

Nothing. Only the skepticism and disbelieve must be eradicated from your mind.

Actor Bruce Lee once Said:

If you want to learn to swim, jump into the water. On dry land , no frame of mind is ever going to help you. — Bruce Lee
